

LEATHER BEESWAX (RUB ON)

High quality beeswax for impregnation and care of smooth leather
Restores the water-repellent effect and extends the life span of the articles.

How to use:
 Apply sparingly on dry and clean leather
Rub the surface with a clean cloth

 Do not use for suede leather, nubuck or rubber (Goralex)

Ideal for full leather shoes that are regularly exposed to wet conditions, not suitable for evening shoes.
Leather can dry out and crack over time if it is not groomed. The cleanliness and care of the leather ensures fit and protection.
Our leather protection enriched with beeswax maintains the suppleness of the main body of the weather protection to the outer surface.
